SECTION 1: Variable Down Payment — Auto

The "Variable Down Payment" options can be found via the "Get a Quote" area inside Arrowhead Exchange, within the "Rating Tab – Billing Plans".

Variable Down Payment: We offer the option to edit the down payment by simply changing the down-payment amount in the screen below. The installment amount will also change as the down-payment is increased. The down payment must be no less than 30 days down and no more than \$75 less than the paid in full amount.

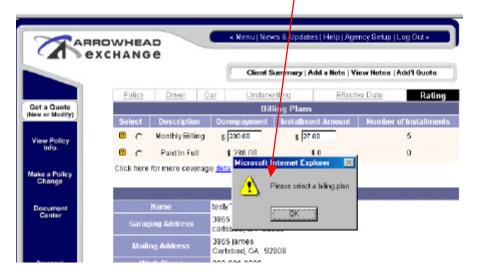

NOTE: Changing the down payment does not change our billing schedule. The first bill will be due in twenty-five days from the effective date and the remaining installments will be billed on a 30-day schedule.

Arrowhead Exchange will request that a billing plan be selected, if not previously selected.

A detail sheet will provide down payment and installment breakdown that can be printed for customer review
