

## **SECTION 1: How to Install and Setup the Bridge with WinFSC — Property**

1. Click the "**Arrowhead Exchange Property Bridge**" link located in the box to the right.
2. During the File Download process, choose to "Save this program to disk". Please remember where you save the "Setup.exe" file in the "Save As" window. We suggest saving the file to the Desktop of your computer.
3. After the file has completed downloading to your local machine, you will need to run the "Setup.exe" file. Find the file on your local machine and double click on the file.
4. Follow the instructions during the Setup process. When asked to "Select Destination Directory", we suggest using the default of **C:\Program Files\Arrowhead\NAL**. When asked to "Select Start Menu Folder", we suggest **Arrowhead Bridge**. Once the install is complete, start your local copy of WinFSC.
5. From the FSC main menu across the top of your screen choose the "Tools" menu, then select "Setup"
6. On the "Bridges" tab, select "Enabled Bridges".
7. You will see **Arrowhead Exchange Property Bridge [Enabled]**. If you do, skip to step 14. If not, go to step 8.
8. Click on "Available Bridges", locate and select **Arrowhead Exchange Property Bridge**.
9. Click on "View/Change".
10. For "Bridge", type **Arrowhead Exchange Property Bridge**.
11. Check the selection box next to **Homeowner, Condominium, Renter, & Dwelling Fire**.
12. Under "Bridge Program", next to "Path", type the location of the program "RunJW.exe". If you are unable to locate the program, contact our Technical Support Department.
13. Next to "Parameters", type:  
-Dcompany=FSC -Dlob=PROPERTY -Dstate=CA -Dfile={Q}  
\*you can copy and then paste the above into the Tools window.\*
14. Click on "OK"

---

### **Using the Arrowhead Online Bridge from WinFSC—Property**

1. From the Rating Results View Screen, choose "Tools" and then "Bridge".
2. The bridge window will now contain the option "Arrowhead Online Property Bridge".
3. Select "Arrowhead Online Property Bridge" to create a new application.
4. Log into [Arrowhead Exchange](#) by entering your Producer Code, Username and Password.
5. Complete the application process
